SOLUTIONS

# 40FT HIGH CUBE SHIPPING CONTAINER

Get the very most space out of your shipping container with the 40ft High Cube. This is one of the biggest containers we offer. A foot taller than our standard 40ft option, it makes a great workshop, site shed, or high-volume storage solution. If you need the ultimate in space, this is it.

#### Details

The 40ft High Cube is ideal for big sites, with bigger-than-average needs. It's a little over 12m long, and a foot taller than the standard 40ft container – which makes it a little too large for most standard residential sites.

This container isn't just big. It's also strong, secure, vermin-proof, and weatherproof. It's built from weathering carbon steel – ideal for all New Zealand's elements, even if it's four seasons in one day.

Don't need as much space? We also offer a standard size 40ft Shipping Container, which is a foot shorter.

#### Key Features

- Extra 1ft ceiling height
- Wind-proof and watertight
- Keeps out pests and vermin
- Wooden floors
- User-friendly lockbox system
- Goods are easily secured with floor and ceiling lashing points
- Measures approx. 12.2m L x 2.5m W x 2.6m H

#### Options

- Make your 40ft shipping container your own with these tailored options...
- Install an extra-secure lock box
