**10FT DANGEROUS
GOODS CONTAINER**

Dangerous goods storage is an all-important part of any workplace's health and safety plan. Make sure you get it right, with SCF's 10ft Dangerous Goods Container. These units are compliant, secure, and strong. They're purpose-built to keep hazardous goods out of your team's way, so they can focus on their job with total peace of mind.

Details

From paint shops to construction sites, manufacturers to breweries. Dangerous goods can crop up in all kinds of industries and workplaces. And when they do, they need to be stored safely, securely, and compliantly. SCF's 10ft Dangerous Goods Container is a great way to do it.

They're specifically designed to house hazardous chemicals, powders, and liquids. Their flooring is galvanised steel – with bunding to help keep a lid on any spills, and raised cross-members to simplify clean-up. There's extra ventilation, a safety drain valve, and an emergency exit. So no one will ever get locked in.

Key Features

- Safe, secure, and highly controlled access to dangerous goods
- Well-ventilated for proper air exchange
- Comes with MSDS Folder for the safe storage of every chemical inside
- Bunded flooring designed for easy clean-up and containment of spills
- 1,100-1,300 bund capacity
- Includes 316L safety drain valve
- Comes with level entrance for extra safety
