**20FT DANGEROUS GOODS  
SINGLE SIDE DOOR  
CONTAINER**

For easier access to your dangerous goods, this unit is a solid option. SCF's 20ft Dangerous Goods Single Side Door Container has all the same purpose-designed features as the rest of our dangerous goods range. It's solid, secure, well-ventilated, and equipped with an emergency escape. Even better, it fully opens up on one side. So you can get quick and easy access to your chemicals, liquids, powders, and other hazardous goods.

#### Details

If it's flexibility and versatility you're looking for, the 20ft Dangerous Goods Single Side Door Container is a great fit. This container has full single side door access which means clearer access to your dangerous goods inside.

Over the years, we've finessed our designs to set a new bar for dangerous goods storage. Every detail has been considered. From the top and bottom vents, right down to the galvanised steel floor – which is bunded for spill containment, and has raised crossmembers for easy clean-up.

With an emergency exit, safety drain valve, and more, this container is the ultimate way to keep hazardous substances out of your team's way.

#### Key Features

- One side fully opens for easy access
- Safe and secure dangerous goods storage
- Well-ventilated for proper air exchange
- Comes with MSDS Folder for the safe storage of every chemical inside
- Bunded flooring designed for easy clean-up and containment of spills
